

1st Iberian Thermoelectric Workshop

(ITW2017)

First Iberian Thermoelectric Workshop 2017 (ITW2017) will be held at Lipor Company (Ermesinde/Porto/Portugal) which will take place from the **7th and 8th September, 2017**.

The workshop will highlight the most recent advances on materials, properties measurement, module fabrication, and device applications in Thermoelectric research field.

A group of invited speakers has been selected to lecture on recent progress thermoelectric field. We hope the workshop will provide an informal forum for discussion where participants can present and converse with other researchers in the field and related areas. We particularly encourage young researchers and students to present their work and engage in all the activities of the meeting.

The scientific program will consist of invited plenary lectures , contributed oral presentations , and contributions in poster sessions.

The workshop will take place in the city of Porto. This will be an exciting event with a great environment. We look forward to welcoming you to Porto and your active contribution and participation in this Iberian workshop.
