

Project name	Technological Adaptation of LIPOR's Composting Plant
Project code	POSEUR-03-1911-FC-000283
Main goal	Protect the environment and promote resources efficiency
Region of intervention	North – Porto Metropolitan Area
Beneficiary entity	LIPOR - Greater Porto Region Intermunicipal Waste Management Service
Date of approval	23/02/2021
Start date	22/12/2020
End date	29/11/2022
Total eligible cost	3.182.474,55€
Financial support from the European Union	Cohesion Fund - 1.950.116,10€
Nacional/regional state financial support	1.232.358,45€
Expected/achieved goals, activities, and results	<p>The operation applied by LIPOR falls within the guidelines of its urban waste management activity defined in the LIPOR Strategic Plan 2015-2020 and in the LIPOR Strategic Plan already drawn up for 2021-2025 (v. May 2020). Its objective is the technological adaptation of the Composting Plant, located in Baguim do Monte, in order to maximize the organic recovery of selectively collected bio-waste, thus constituting a relevant contribution to the fulfilment of the goals assigned to LIPOR. The operation includes the technological adaptation of LIPOR's Composting Plant, involving:</p> <ul style="list-style-type: none">. Supply and assembly of a granulation line for the compost produced;. Supply and assembly of equipment for the green waste sorting line from cemeteries entering the Composting Plant and construction works associated with this line.

Additional MSW recycling capacity (ton/year)
Goal: 426,00 Ton./year
Target Year: 2022

Biowaste Landfilling
Goal: 2,25%
Target Year: 2023

**Growth of installed capacity for organic
 Biowaste valorisation**
Goal: 426,00 t/year
Target Year: 2022

**MSW prepared for reuse and recycling, in
 the total of recyclable MSW**
Goal: 34,38%
Target Year: 2023
