Expected/achieved goals, activities, and results	<p>The objective of this Operation is to separately collect waste from the multimaterial fraction, by improving local equipment and through separate door-to-door collections in the residential and non-residential sectors, and is based on fundamental awareness of the population.</p> <p>With this operation, LIPOR aims to see a significant increase in separate collection and in the recovery of materials for recycling, thus forming part of the guidelines of its municipal waste management activity set out in LIPOR's 2015-2020 Strategic Plan, primarily focusing on increasing multimaterial separate collection, and hence contributing towards responding to its goals and targets set in PERSU 2020.</p>

The operation has increased the amount of waste, from the multimaterial fraction, recovered for recycling, significantly helping to meet the associated targets, namely the preparation target for reuse and recycling.
