Expected/achieved goals, activities, and results	<p>The goal of this Operation is to separately collect biowaste and waste from the multimaterial fraction, through separate door-to-door collections in the residential and non-residential sectors, with a special focus on monitoring the collection processes.</p> <p>With this operation, LIPOR aims to see a significant increase in separate collection of materials for multimaterial recovery and composting, thus forming part of the guidelines of its municipal waste management activity set out in LIPOR's 2015-2020 Strategic Plan, primarily focusing on increasing multimaterial and biowaste separate collection, and hence</p>

contributing towards responding to its goals and targets set in PERSU 2020.

The operation will increase the amount of recovered waste from the multimaterial and biowaste fraction, significantly helping to meet the associated targets, namely the preparation target for reuse and recycling. It will also allow access to real-time information on the collection processes, guaranteeing their effectiveness and optimization.
